I wouldn't suggest the 30th for anything other than rodenticide stuff...

Subject: Meeting to Discuss Imidacloprid Field Study

Good Evening All,

We will need to postpone tomorrow's meeting until next week. I have found Thursday January 31 from 3-4 PM EST or Wednesday 30 from 2-3 PM EST work for us over here. Please let me know which time works better.

Best,

Rusty_____
